

We're not looking for 'ordinary'

JJS Electronics Ltd is part of a £30m group of specialist electronics companies, employing over 320 people with premises in Bedford, Lutterworth and the Czech Republic.

Graduate Opportunities

Excellent salary + benefits

As an Electronics Manufacturing Services company, our unique blend of pioneering expertise and comprehensive experience means we are equipped to deliver exceptional results for diverse manufacturing projects, from prototyping and pre-production units, through to demand-driven logistics and medium volume manufacturing.

We are looking for committed individuals to join our Commercial Graduate Scheme, based at our 40,000 sq ft state-of-the-art UK plant in Lutterworth, Leics.

An energetic 'can do' attitude, a passion for customer care and a robust sense of humour are an absolute must!

The JJS graduate programme is a platform on which to develop a breadth of skills involving on-the-job experience and relevant internal and external training. Typically lasting two years, the scheme offers the opportunity to experience various roles across the group of companies. As a result, participants will gain exposure to the varying elements of Mechatronics which will include procurement, sales, customer relationship management, engineering and manufacturing. This programme is designed to provide career progression with targeted milestones and rewards to match. On successful completion of the course, participants will take up a leading role within the our Technical/Commercial Team based at JJS Ltd in Lutterworth.

Training and development

The programme offers:

- Ability to work at both UK sites (Lutterworth and Bedford) in various areas of the group business, from logistics through to manufacturing.
- 'On the job' learning plus internal and external training courses to develop technical, management, commercial and behavioural skills.
- Dedicated personal mentoring and support, continued professional development, regular appraisal and feedback.

Candidates must be able to demonstrate the following:

- Ambition
- A good quality technical/engineering degree
- Good organisational and communication skills at all levels
- Ability to concentrate and produce accurate work with excellent attention to detail
- Ability to confidently use a PC to process large quantities of data
- A practical hands-on approach to solving problems
- Willingness to take on the training tasks given to you
- Ability to work on your own or as a member of a team
- An interest in the electronics manufacturing industry

If you think you have what it takes then forward your CV and covering letter by 2nd July 2010 **quoting ref JJSGRAD** to:
